US Committee for Graduate Medical Education
Urgent Care Medicine
A nonprofit that provides Graduate Medical Education program development and oversight

Mission
Training physicians in a nurturing, professional, and highly educational environment; delivering competent physicians to society while delivering excellence in patient care.

Vision
1) Structuring the environment such that the primary focus is on delivering high quality clinical education experience in a nurturing and professional setting with excellence in patient care.
2) To set an environment for the purpose of allowing training physicians to focus on gaining the knowledge, skills and abilities to become excellent in their field of study.
3) To educate in the role, professional standings, and function of the physician in patient, peer, and societal interactions.
4) To understand and internalize the Oath of Maimonides.
5) To supply a supervised clinical environment to develop physicians in their respective specialties who are competent for society and safeguard excellence in patient care.
6) Physicians who are deeply invested and exemplary and who will lead the development of our future medical providers.

Values
1) Excellence in education and clinical training
2) Professionalism and ethics
3) Demanding expectations and competencies
4) Compassion and fairness
5) Every trainee is an individual and respected
6) Delivering KSAs to the next generation
